

Job description

Psychiatrist wanted to join well-established, multi-disciplinary, outpatient private practice in Mentor, Ohio.

We are a multi-disciplinary mental health practice providing a combination of psychiatric and psychological services to adolescents, adults, and seniors. Services include comprehensive assessment and treatment of mental health conditions and addiction. To meet the mental health needs of Northeast Ohio, our practice prioritizes our IOP services; in addition, we provide individual and conjoint psychotherapy, medication management and forensic assessment services.

Responsibilities

- Assess and screen patients by conducting psychiatric evaluations, including interviews, medical histories, observations, and psychological testing
- Analyze data and results of assessments to diagnose patients
- Prescribe and administer medications according to diagnosis
- Monitor patients to determine efficacy and potential side effects of medications
- Develop a treatment plan, measure progress against the plan, and make adjustments as needed
- Complete all necessary clinical documentation in an accurate and timely manner
- Collaborate with a broader team of physicians, psychologists, and nurses to assess and adjust treatment plans

Qualifications for Psychiatrist

- Current and valid board certification in psychiatry
- Medical degree from an accredited medical school and completion of an approved psychiatric residency
- Licensed to practice medicine in state of practice
- Strong working knowledge of general psychiatric principles and practices
- Excellent interpersonal and communication skills

***Please provide resume and cover letter with application.**
